

Elevate Your Business with Zion Stone's Core Competencies

www.zionstone.com

Zion Stone stands out globally with 4 core strengths:

01

—
Experience

02

—
Tailored Procurement

03

—
Precise Design

04

—
Innovative XR

20 Years of Granite Engineering Excellence

20 Years of Granite Engineering Excellence

- Focused on setting high standards in the stone industry for over 20 years.
- Deep industry expertise enhancing every aspect of procurement, processing, and project implementation.

Advanced Manufacturing and Technology in Fujian

- Own professional stone engineering factory located in Fujian.
- Combination of superb technology and efficiency ensuring precision and top-notch quality in every project.

Extensive Network Across China

- Strong connections with numerous mines and factories nationwide.
- Capability to meet diverse customer needs with a variety of high-quality Chinese stones.

Tailored Marble Procurement Service

Tailored to Perfection

Customized service ensuring the perfect match for every project.

Smooth Global Trade

Expert handling of international trade, ensuring seamless project execution.

Handpicked from Shuitou

Selecting the finest marble slabs from the renowned Shuitou market.

Efficiency & Cost-Effectiveness

Saves time and costs without compromising quality.

Quality and Adaptability

Top-quality materials adaptable to diverse needs.

Blueprint Services: From 2D Drafts to 3D Models

Detailed Mapping:

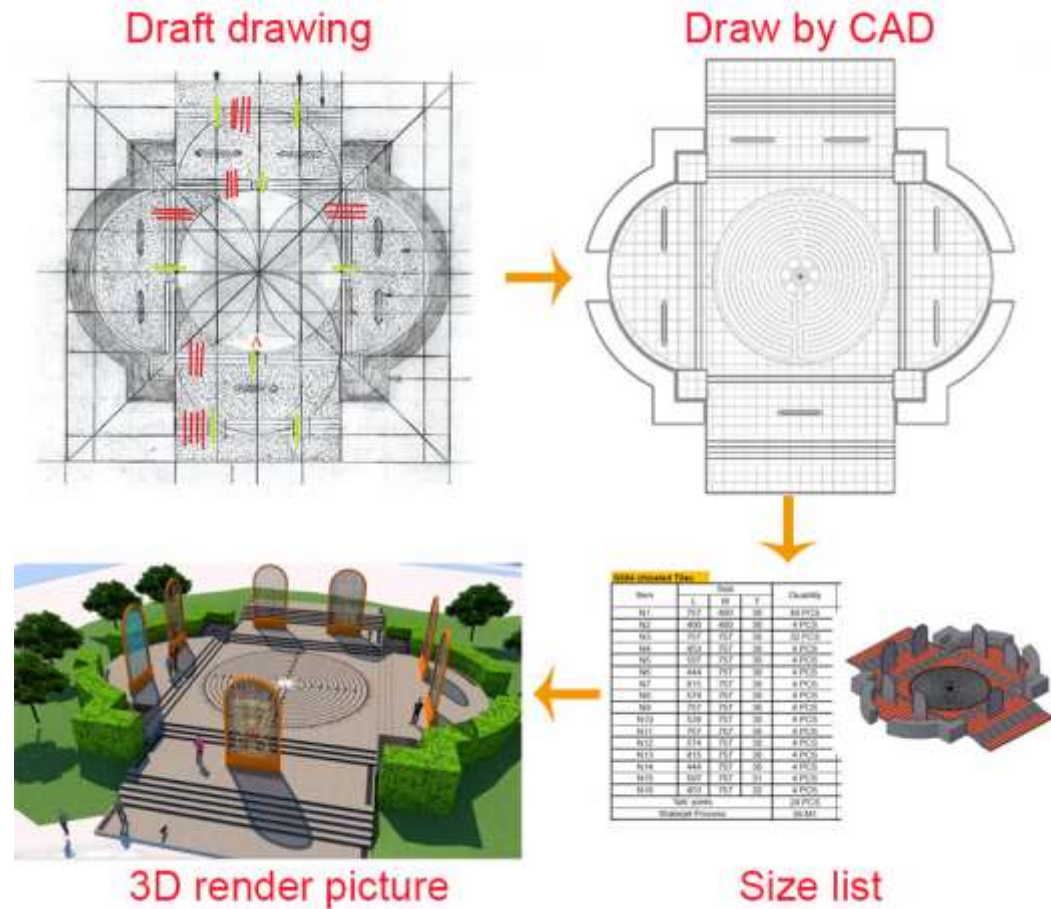

Our services span from basic 2D drawings to intricate 3D modeling, ensuring your design vision is represented from every angle.

3D Visualization Technology:

Utilizing cutting-edge 3D tech, we enable clients to clearly understand design plans and anticipated outcomes, enhancing the plan's appeal and comprehensibility.

Cost Analysis & Video Presentations:

Providing detailed cost breakdowns and video overviews of the project, aiding in informed decision-making and comprehensive project insight.

Leading with XR Technology Applications

Innovation in VR and AR

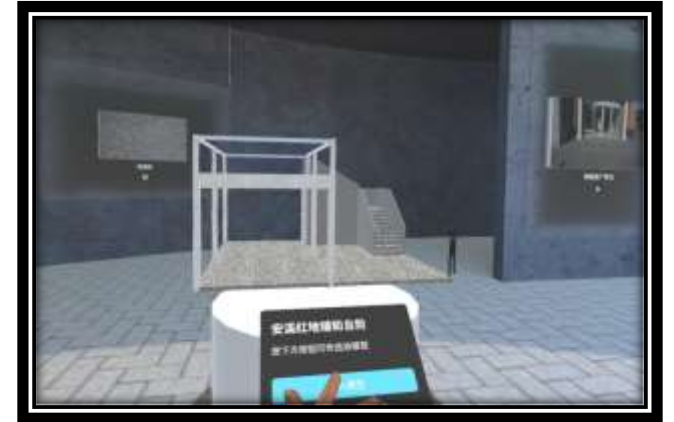

Our tech subsidiary is focused on innovating with VR and AR technologies, revolutionizing the stone industry.

Novel Experiences

These advanced XR technologies offer a novel experience in previewing design plans, enhancing customer engagement and satisfaction.

Transparent Design Solutions

They increase transparency in design solutions, enabling clients to better understand and engage in the design process.
